

# ultimate *outdoor kitchen* experience

## What's Cooking?

Step in and take a moment to absorb the new standard in appliance showrooms. The 12,000 square feet of innovative home appliances and kitchen design will inspire you to transform your work areas into your favorite spaces. Located in Salisbury's Twilley Centre, Shore Appliance Connection's new home offers a shopping experience that is unmatched in the Mid-Atlantic. Burgeoning development on the Eastern Shore and increased interest in home remodeling led Gary Larmore, President, to relocate the company that has served the area for over 50 years in order to keep up with the unprecedented demand for the products and service Shore Appliance Connection offers.

Larmore, a Salisbury native who started working with his dad, Floyd, on a Saturday job at Lafayette Radio, is now joined by sons Duane and Ryan to make it, truly, a family adventure.

"We're the largest home appliance showroom on the Shore, with a selection of 678 different models from over 60 manufacturers," said Larmore. "As a member of Nations Brand Direct, the largest independent appliance dealer in America, with over two billion dollars of buying power, we can match or beat any competitor's price, including the big box stores."

Quality, service and unbeatable prices are the hallmarks of Shore Appliance Connection's long-standing, fine reputation and attractive financing incentives make outfitting your dream kitchen easy on the pocket too!

The expansive showroom, painted in the latest decorator colors, features 20 individual kitchen vignettes by designers Erica Wolff and Lisa Ulm of Kitchen Designs.

Do you love electronics? Experience a home theater first-hand with the high-tech display by Jeff Wharton of Sound Advice Audio Specialties.

Do you love to cook? The ultimate cooking experience area features interactive kitchens with fully functional appliances and will host celebrity cooking demonstrations.

While there is no pressure to buy, the showroom is amply staffed- so there's no waiting around for assistance. Every sales employee is certified by the National Certified Advisor training program. This program is sponsored by all appliance manufacturers and members are required to be retested every year. "We pride ourselves in what our sales people know," Larmore said. "They help customers make informed decisions based on their family's current and future needs."

Though you may want to pick up your new purchase from the three-tier, 12,000-square-foot, super-efficient warehouse, Larmore recommends delivery and installation by Shore Appliance Connection's trained and certified crew members to maximize performance, particularly important with escalating energy prices, and longevity.

Whether you're looking to outfit your first apartment or home, are downsizing after children have left, or are a building contractor, you're guaranteed to find exactly the right items, unbeatable prices and reliable service that only Shore Appliance Connection provides!
